Vermont Council for Quality Offers A New One-Day Workshop on the Development of A “Corporate Sustainability Plan” For Your Organization

Burlington, VT – Vermont Council for Quality offers this workshop both in Burlington and the Rutland area on March 16th and 17th. The Workshop is based on Dr. Fisher’s new book, **Corporate Sustainability Planning Assessment Guide (A Comprehensive Organizational Assessment)**

This interactive one-day workshop involves:

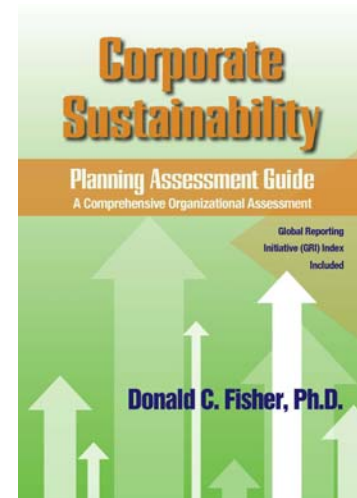

- Conducting a Quick and Easy organizational self-Assessment for Corporate Sustainability
- Completing the Corporate Green Sustainability Index (CGSI) and the incorporation of the Global Reporting Initiative (GRI) Index to identify corporate sustainability issues for an organization
- Identifying key **economic** (financial/cost saving Factors), **environmental** (risk/requirement factors), and **Social** (human/employee development Factors) otherwise known as the “Triple Bottom-Line” for an organization
- Developing a Corporate Sustainability Plan and Budget

What benefits will your organization gain from conducting a corporate sustainability assessment and plan?

- Increase revenue/reduce costs
- Enhance organization brand, reputation, market value
- Attract and retain talented employees
- Mitigate regulatory and business risks

After completing the workshop, participants will be able to:

- Conduct a corporate sustainability assessment based on the Criteria for Performance Excellence
- Identify key **economic**, **environmental**, and **social** (Triple Bottom-Line) issues that impact an organization’s corporate sustainability
- Develop a “Corporate Sustainability Plan” incorporating the **Global Reporting Initiative (GRI) Index** that is being used by over 1500 “Fortune 500” Companies World-wide in both their **Annual Reports** and their **Corporate Sustainability Plans**
